## Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the

focus of your brainstorm.

PROBLEM 1 How might we help job seekers search for specific iob vacancies ?

PROBLEM 2 How might we make the hiring procedure easier to select the best candidate for the iob?

PROBLEM 3 How might we make the

How might we help job seekers search for specific job vacancies?

Key rules of brainstonning

To run an smooth and productive session Stay in topic. Defer judgment.

Encourage wild ideas. Listen to others.

Go for volume.

If possible, be visual.

#### PROBLEM 5

How might we proper platform for recruiters to display job openings?

## Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the laser pointer holding th H key on the keyboard.

Feasibility Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)
